## Default Window:

- Menu Bar at the top
- Tool Bars:
  - File Toolbar
  - Capture Tool Bar
  - Analysis Tool bar
  - Filter Tool bar
- Status Bar at the bottom

Tabbed Widget in the center, initially displaying default tab

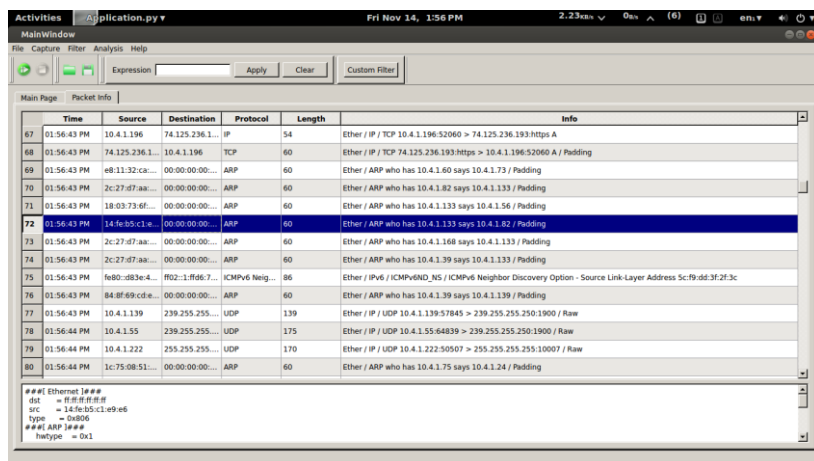

On Pressing Start Icon:

Display interface list and Select Interface

- After selecting interface, select ok to view the captured packets. Select stop when you wish to stop the capturing of packet data

- Select a row to view more detailed information about the packet at the bottom

On Pressing Open File Icon:

Opens up a file choose dialog that accepts PCAP files. If appropriate file is selected, then display it in the packet info tab.
